# Cause and Effect

Read each pair of statements. For each pair, decide which statement is the cause and which is the effect.

|                                    |                                     |
|------------------------------------|-------------------------------------|
| There was broken glass everywhere. | The glass bottle fell on the floor. |
| The thunderstorm was beginning.    | Our field trip was cancelled.       |
| The back door was left open.       | The cat ran outside.                |
| The baby began to cry.             | Alex made a loud noise.             |

Write each statement in the correct box on the chart.

| Cause |   | Effect |
|-------|---|--------|
|       | → |        |
|       | → |        |
|       | → |        |
|       | → |        |
