

Math

Aim/Skill/Concept:

SWBAT to use a use angles to classify and measure polygons

Materials

Harcourt Math Textbook, pencil, scratch paper

Assessment:

Students will have to write the shapes of each polygon, number the angles in each shape, with the number of sides, and also draw and label the shape polygons (Activity 1). They must then draw a large triangle on a blank paper to cut the tip of the triangle (3) to form a straight line. (Activity 2).
